SERVICE

Darglow is delighted to announce that they recently secured the services of Brian Bates, to head up their new propeller repair and pitch service.

Brian is well known within the industry, and with more than three decades experience under his belt, including service to British and World powerboat champions, he has worked on just about every type of propeller there is!

Brian Bates, a lifetime in propellers!

Repair, fine-tuning - or both!

The new service will be welcomed by the entire spectrum of powered watercraft users - as now, their propellers can not only be repaired when damaged, but also the pitch of the blades can be adjusted to fine-tune performance!

Every type of propeller is acceptable for the service - whether fixed or folding, or made from stainless steel, aluminium or bronze. Blueprinting is also available.

After the appropriate repair work or pitch adjustment has been completed, all propellers are then hand-balanced to perfection, prior to despatch.

Suitable for all:

The following list, encompasses a selection of craft likely to require the repair and pitch service:

- Power boats • Cruisers • Yachts • Race boats
- Inflatables • Ribs • Pleasure boats • Fishing boats

Final balancing of propeller

Propeller straightening

Welding

Pitch checking & adjustments

FEATHERSTREAM™
